Exciting shopping in Kuala Lumpur

Hone your Shopping Skills

Buying things just because they are cheap is not good shopping, but going shopping when there is a big sale on is a great shopping strategy. Kuala Lumpur is the No.1 choice for shoppers and is home to Malaysian Mega Sale, held 3 times a year.

HIDDEN TAIWAN

When I started talking about a trip to Taiwan, most people I knew told me to go to Taipei. Instead, I decided to visit relatively less popular cities Taichung and Tainan. Just as you sometime discover a great restaurant at the end of a remote street, I would be able to explore true fun and excitement of a trip in these two cities.

TAIZHONG

MAKE A WISH!

TACHIA CHENLAN TEMPLE

The Tachia Chenlan Temple enshrines Mazu, the Chinese goddess of the sea. In Taiwan, there are about 3,000 Mazu temples. Among them, Tachia Chenlan Temple is the best. Mazu was widely worshiped in the coastal regions of China to give thanks for safe arrivals. Now, on Mazu's birthday (lunar March 23), a throng of followers travel some 330 kilometers from Taichung to Changhua, Yunlin and Chiayi for a pilgrimage that lasts for 9 days at this 280 year-old temple with its gaudy colors and elaborate patterns. After offering a Buddhist mass, believers make a wish and throw two red wood pieces. If the two pieces aren't matched, it means 'positive.' If they are matched, it implies 'negative.' Those with an unmatched hand pick up a numbered bamboo stick and open up a note marked with the number. Many Taiwanese people tend to have their fortunes told when there is a big occasion upcoming such as a marriage or a business startup.

THE TEACHINGS OF CONFUCIUS IN TAINAN

TAICHUNG CONFUCIUS TEMPLE

The Taichung Confucius Temple is very small, compared to the magnificent Confucius temple in Qufu, China. In this space, however, you can truly feel the sayings of Confucius, who wanted to give all people an opportunity to learn. The unique spire roof originated from the architectural pattern of Fujian Sheng in China. The decoration, which expresses the transformation of a fish into a dragon, is fascinating. In the Shrine of Confucius, people offer prayers to the sage; the temple also is home to 24 stone monuments.

FIGHTING BACK AGAINST THE JAPANESE ARMY

YIZAI JINCHENG, THE ETERNAL GOLDEN FORTRESS

Yizai Jincheng, which literally means 'an impregnable fortress that can endure for over 100 million years', was built in 1876 to fight against the Japanese army, which attempted to land at Anpyung Sea during the late Qing period. At that time, approximately 1,500 soldiers with 13 cannons defended Tainan with undaunted courage. Now, belying the struggles of history, a charming dock boat drifts about in the moat and the training site is a beautiful garden. The arsenal is now only partially remaining.

A Door

The soothing spring breeze, so gentle and warm, makes you feel like heading out for a fun springtime excursion. Personally, I visited Dalmaji Hill in Busan. As soon as I passed Haeundae Beach, fascinating galleries appeared along the railway on the hill covered in cherry blossoms. I felt the same thrill that I felt on Montmartre Hill here on beautiful Dalmaji Hill.

NEAR DALMAJI HILL

Dalmaji Hill is elegant and charming enough to be called 'Korea's Montmartre.' A variety of lovely, unique cafes and galleries are located along the steep hill. Climbing up the hill to view the beautiful art pieces, you will be amazed at the breathtaking view of the sea. While no trains run along the railway anymore, the evocative nostalgia of the rails brings back childhood memories.

THE RAILWAY GALLERY BANANA LONG GALLERY

A unique, all-yellow building located at the corner of Dalmaji-gil Street may be reminiscent of a fairy tale. Or, it may remind you of a sweet banana. Because of the unusual exterior design, it is a popular destination among travel bloggers. About five years ago, the owner of the gallery transformed an old, outdated house into this 14 pyeong cozy gallery. Even with just three visitors, the gallery seems crowded. The resident canine companion 'Cola' welcomes visitors at the entrance. The gallery displays a variety of beautiful art pieces such

as Lee Hong-seok's hyper-collage photos, objects of Yeon Won, who describes human civilization through books, professor Seok Nak-hui's sculpture made of machine parts and Lee Jin-cheol's comb-pattern pottery. If you like paintings, you will absolutely enjoy a visit to the Banana Long Gallery, sure to bring healing and comfort to your weary soul.

ENJOY ART WHILE TAKING A REFRESHING TEA BREAK GALLERY MONTMARTRE

Gallery Montmartre is situated at the foot of Dalmaji Hill, from which beautiful Dongbaekseom Island and the white sands of Haeundae Beach can be viewed. This gallery opened in July 2002 to provide a space for those who had no place to exhibit their art works even though they are artistically talented, just like the starving artists of Paris. Beginning this year, it is operated by the Korean painting artist 'Shin Tae-eun.' The owner of the gallery serves traditional tea and drip coffee to visitors in person. It is a great experience to enjoy a cup of sweet tea, looking out over picturesque landscape through the window. The gallery also offers a hands-on arts program every month. The 3 to 4 hour-long program is run by the owner of the gallery.

**A CARING AND HONEST GALLERY CULTIVATING ARTISTS
MAEKHWARANG**

Maekhwarang opened in March 2007. This small, modern art gallery supports young artists. To help discover and support rising artists, it has held the 'Maekhwarang Art Awards' and exhibited young artists' works since 2009. In addition, the gallery has held the 'Six-figure-Korean-Won Happy Exhibition.' Because high prices might cause some to hesitate in buying a painting, the Maekhwarang offers relatively low prices for works, ranging from KRW 100,000 to KRW 990,000 to popularize 'possession of art pieces.' Approximately 100 painters including Moon Hyeong-tae, who painted his daily routine and experiences just like a fairy tale, western painting artist Jeon Yeong-geun, who painted travel-themed paintings, and Kwon Hyeok, who is famous for the painting 'Moon Jar', have participated in this program. Nguyen Thi Hong, Vice Chairwomen of
the HCMC People's Committee

Ho Chi Minh City, Tourism Hub of Southeast Asia

Despite being the largest city in Vietnam, with rich culture and history, Ho Chi Minh City is still relative unknown for travelers around the world. But that is about to change. With the city's infrastructure rapidly improving in recent years as well as an international campaign to promote the city to the world, Ho Chi Minh City aims to become the tourist capital of Vietnam. Madam Nguyen Thi Hong of the HCMC People's Committee let us in on the future of Ho Chi Minh City's tourism industry.

How would you describe Ho Chi Minh City (HCMC) in a word?

Ho Chi Minh City is the center of the economy, culture and tourism of Vietnam with diversity and potential resources. As the leading city

of the country, Ho Chi Minh City is the center of economics, culture and politics.

Vibrant Ho Chi Minh City - The word 'Vibrant' will inspire everyone. Ho Chi Minh City is full of diverse styles, trends, and amazing culture. The city keeps changing and moving forward.

What is the best attraction of HCMC as a tourist destination? And what are your most favorite tourist spots personally in HCMC?

Right at first glance, Ho Chi Minh City will make a deep impression as a big, busy city. Founded only 300 years ago, you can, at any time, see how much the city has changed.

Ho Chi Minh City attracts more than 4 million international tourists every year, accounting for 60%-70% of the total international visitors of Vietnam. With an advanced infrastructure and tourism services, Ho Chi Minh City is the largest tourist hub in the whole country and the gateway of the region. There are many attractive tourist spots in Ho Chi Minh City, but you cannot skip the antique architectural attractions such as Reunification Hall, City Theatre, Notre Dame Cathedral, City Hall Cu Chi Tunnels and the museums with thousands of records of the city's heroes. From Bach Dang Quay, you can hop on a Saigon river cruise, which leads to traditional villages, bushy orchards, floating markets and the Can Gio Mangroves Forest, a Biosphere Reserve designated by UNESCO.

[What is the main purpose of travellers to visit your city? And which country/region ranks first in the list of the international visitors arrivals in HCMC?](#)

Travellers visit Ho Chi Minh City to explore the oriental heritage as well as traditional and modern performances. Tourists also want to learn about the remnants of war at the historical museums regarding the history against the western invasion. They are also interested in tasting the diverse culinary cultures from the north and south provinces of Ho Chi Minh. Every month we organize cultural events to attract international tourists to enjoy the festivities and cultural atmosphere here.

In the year 2013, the countries from which most international visitors came were Japan, USA, South Korea, China and Australia. The People's Committee of Ho Chi Minh City approves overseas marketing campaigns to promote Ho Chi Minh City as a safe, friendly and exciting destination in order to attract more international tourists in 2014 and beyond.

[What are your views on tourism in HCMC and what has changed since the city has opened up to increasing numbers of tourists?](#)

Ho Chi Minh has certain advantages including its youthful strength, strong economic performance and high integration capability. Compared to other cities in Vietnam, the city has unique features that will leave a deep impression on visitors. What makes foreigners want to visit Vietnam is not only the infrastructure of Ho Chi Minh City but also the spiritual values of the city. Thus, the marketing campaign for the city's tourism industry will produce the desired effect focused on new products.

Ho Chi Minh City has been building its campaign to attract tourists in recent years. The most successful campaign has been the 'Ho Chi Minh City - 100 Excitements' program, which introduces all the top tourists spots and activities in Ho Chi Minh City that tourists must experience. In coming years, we are going to implement a waterway cruise. Tourists can enjoy a tour of many places in Ho Chi Minh City such as traditional villages in Dist9, Can Gio, and the Mangroves Forest. The cruise also connects to the nearby provinces along the Lower Mekong River region, which links Thailand, Lao, Cambodia and Myanmar.

[As a destination for visitors from overseas, what would you think are HCMC's best assets?](#)

The waterway cruise is one of the strategic tourism products for the 2011-2015 year period. Ho Chi Minh City's tourism sector is concentrating on constructing a stable development plan aimed at gradually tapping waterway tourism to the city's GDP. As I mentioned before, Ho Chi Minh City has an abundant number of historical, cultural and traditional heritages, and these would be considered the city's most valuable treasures.

[Nowadays, many cities rely on tourism as the mainstay of their economies. To what extent have you been able to market out tourism abroad?](#)

Promotions and marketing campaigns need to be specifically targeted towards the mindset of the target audience. To do so professionally and efficiently, we sought out advice from those with long experience in managing these markets.

We target Ho Chi Minh City as a safe and suitable destination for MICE and incentive tours based on our 1980 hotels from 1 star to 5 star hotels with a capacity of 45950 rooms available. Corporate incentives, conferences and meetings also play important roles in our industry. But, as most people tend to consider this as business travel, they neglect the leisure activities due to focus on the business element. We created the 'Ho Chi Minh City - 100 Excitements' to introduce the entertainment side of tourism in the city for business travelers. This program will allow business travelers to experience the 'Ho Chi Minh City - 100 Excitements' program.

[Please let us know if you have any suggestions or projects in mind for tourism promotion in Asia Pacific Cities and TPO.](#)

I suggest the cities in the Asia Pacific area organize a tourism summit for mayors every 2 years. At the conference, I think every mayor will be able to exchange information on the developing of the tourism industry between Asia Pacific cities. The cities will sign a general action plan and aim to develop tourism products that could link other cities.

I certainly hope that all cities will join the ITE HCMC this year. Together we can make the promotional campaign bigger and bring mutual benefits to Asia Pacific cities.

I wish all the readers full of health and happiness. Thank you!
